Project Planning Phase

Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

Date	27 October 2026
Team ID	EN25CS3011046
Project Name	Formula 1 Race Intelligence Dashboard
Maximum Marks	8 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Data Access & Integration	USN-1	As an analyst, I can view race results for all seasons in one dashboard, so I do not have to open separate files.	8	High	Vijeta Nagda
Sprint-1	Dashboard Overview	USN-2	As an analyst, I can see headline numbers (teams, seasons, race outcomes, circuits) at the top of the dashboard.	2	High	Vijeta Nagda
Sprint-1	Performance Analysis	USN-3	As an analyst, I can rank drivers by total points in a leaderboard.	5	High	Vijeta Nagda
Sprint-1		USN-4	As an analyst, I can compare team ranking and points trajectory across seasons.	5	High	Vijeta Nagda
Sprint-2	Reliability & Strategy	USN-5	As an analyst, I can see DNF reasons by driver to judge reliability.	5	Medium	Vijeta Nagda
Sprint-2		USN-6	As an analyst, I can see the share of tyre compounds used (soft, medium, hard, intermediate).	2	Medium	Vijeta Nagda
Sprint-2	Filters & Exploration	USN-7	As a fan, I can filter by season, driver and team to explore the results I care about.	8	High	Vijeta Nagda
Sprint-2	Podiums & Participation	USN-8	As a journalist, I can see podium achievements by driver and team and race participation by country.	5	Medium	Vijeta Nagda

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-3	Story	USN-9	As a fan, I can follow a Tableau story from the global overview to championship success.	5	Medium	Vijeta Nagda
Sprint-3	Web Access	USN-10	As a web user, I can open the dashboard and story in my browser through the Flask website.	8	High	Vijeta Nagda
Sprint-3	Publishing	USN-11	As the author, I can publish the workbook to Tableau Public so it can be embedded.	5	High	Vijeta Nagda
Sprint-3	Data Update	USN-12	As the author, I can refresh the data when new season results are available.	2	Low	Vijeta Nagda
Sprint-4	Testing	USN-13	As the author, I can test the filters, tooltips and story navigation so that every chart works correctly.	5	High	Vijeta Nagda
Sprint-4	Documentation	USN-14	As the author, I can document the problem, approach and results so reviewers can follow the project.	8	High	Vijeta Nagda
Sprint-4	Demonstration	USN-15	As the author, I can record a voice-over walkthrough that links each graph to a scenario and upload it to Google Drive.	5	Medium	Vijeta Nagda
Sprint-4	Submission	USN-16	As the author, I can publish the project files to GitHub and submit them on SkillWallet for review.	2	High	Vijeta Nagda

Project Tracker, Velocity & Burndown Chart: (4 Marks)

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	6 Days	05 Oct 2026	10 Oct 2026	20	10 Oct 2026
Sprint-2	20	6 Days	12 Oct 2026	17 Oct 2026	20	17 Oct 2026
Sprint-3	20	6 Days	19 Oct 2026	24 Oct 2026	20	24 Oct 2026
Sprint-4	20	6 Days	26 Oct 2026	31 Oct 2026		

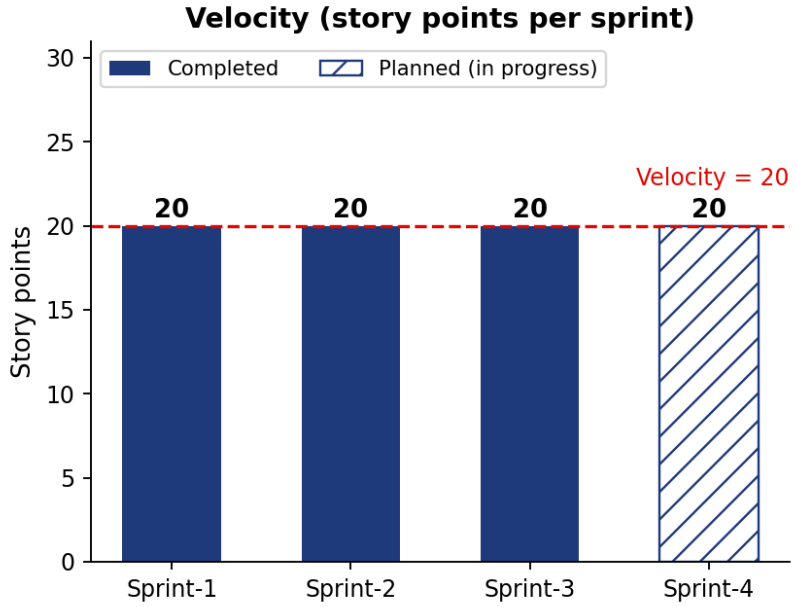

Velocity:

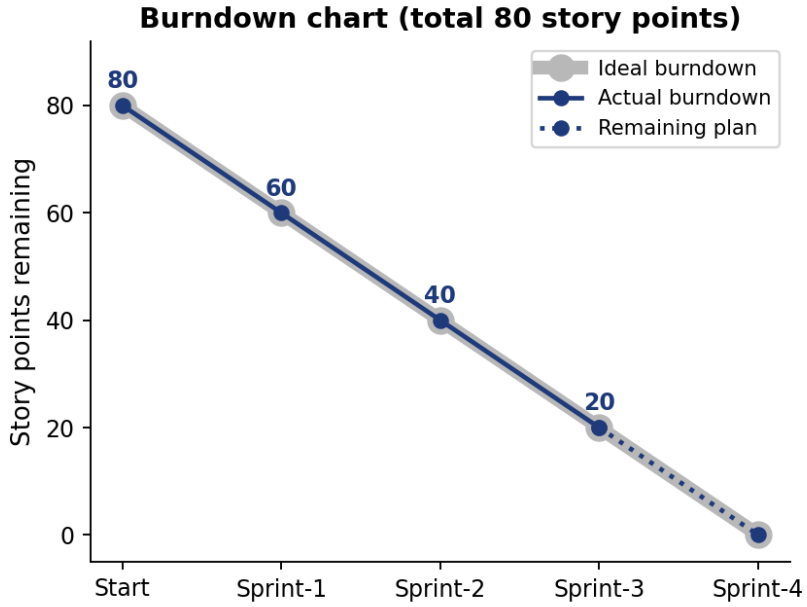

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

For this project: sprint duration = 6 days and team velocity = 20 story points per sprint, so
Average Velocity (AV) = velocity ÷ sprint duration = 20 ÷ 6 ≈ 3.33 story points per day.

Burndown Chart:

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
