Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel

PS-1	a race analyst or team strategist	compare driver and team performance across seasons to find where races and championships are won or lost	the data sits in thousands of race records (6,464 race outcomes across 17 seasons) that are hard to scan in tables	raw race results are not summarised, filtered or visualised in one place	overwhelmed and unsure whether my conclusions are right
PS-2	an F1 fan or motorsport journalist	understand which drivers, teams, circuits and tyre strategies have shaped championships	static tables and scattered statistics do not let me filter by season, driver or team	no interactive view connects results, reliability, tyres and podiums into one story	frustrated and disconnected from the story behind the numbers
